Message from President

Our team to the PyeongChang 2018 Olympic Winter Games is small but not so its will to compete. Our athlete is charged with showing our colors in Korea where history will be made.

We are proud of sending our first ever Alpine Skiing team to the Games, the qualities that they embody are the best that are in us. The team will be lauded over there and be appreciated here back home as they are in our thoughts.

Go forth and be brave. The Olympics are made for people passionate about sports, about doing well and doing right, about our talented athlete who is well trained, fit and ready for the challenge. To say more is not necessary. In sports, in the Olympics, actions speak more eloquently than any word.

Good luck to our team!
