Message from the President

Much has changed but the tradition has not, not by a single iota, with our Sports Federation and Olympic Committee in the eventful and fruitful past year. This is as our organization should be doing because what is good has to continue and what is essential remains.

We introduced a quarterly newsletter, the Olympic Voice, in October 2015 to keep the community abreast of our progress and elucidate our intentions. The pamphlet, available in print and online, is today a means to state our case and make public our records. The year has also been one for the Olympics, from preparations, meets and trials, and finally to the culmination in the Summer Games in Rio de Janeiro where our sporting representatives attained respectable results against a field of the elite, the best of the best.

Within the movement, we have duly bid farewell to veteran administrators and leaders who contributed more than we could have imagined for which we are grateful. This has ushered in a new generation to receive the proverbial baton in this perpetual relay. Our Secretariat, from the Office of the Honorary Secretary General to members of the SF&OC, has been rejuvenated and is still as faithful as ever to the vital mission of propagating the ideals we espouse for the sports we love.

While the Yearbook surveys our deeds and celebrates our achievements through the feats of our athletes, it also has to remind us of the collective challenges ahead because the past is the foundation for the future. Our wish is not only to meet but also to exceed our sporting goals by redoubling our effort because no one can afford to slacken the pace while elsewhere similar strides are taken in a competition that is local, regional and global.

We have a chance here to express our gratitude for the support we have received and to reaffirm our commitment to the public of Hong Kong, we have a mission to give everyone cause to be proud and foster unity through the games we participate in our bauhinia flag.

The Secretariat supports various Committees of the Federation, communicates with IOC and OCA, coordinate with all Member Associations, prepares for the Hong Kong, China Delegations to the multi-sports Games and promotes the Olympic movement in Hong Kong through organization of three mega events, namely, Hong Kong Sports Stars Awards, Festival of Sports and Olympic Day. The MCOHL Office manages the Olympic House under the spirit of environmental protection. The HKACEP Office provides various supports for qualified retired athletes for their education, career, life skills development and the "Sports Legacy" Scheme leading to the ultimate aims of providing jobs for them. The HKADC Office fights against the use of drugs in sports in Hong Kong by implementing education and testing programmes.

G. CLOSING REMARKS

In 2015-16, the Federation has moved forward another enormous step. The Federation Corporatization Working Group was set up in response to the request to corporatize by the Home Affairs Bureau of the HKSAR Government, with the staunch support and constructive comments from our Elected Officers and Member Associations. After rounds of consultation with the International Olympic Committee, the Federation is making good progress towards its goal of becoming a company limited by guarantee.

At the same time, the Sports Legacy Pilot Scheme initiated by the Hong Kong Athletes Career & Education Programme under the auspices of the Federation since 2012 has received positive responses from various stakeholders. A new phase of the "Sports Legacy" Scheme, sponsored by three strategic partners including: Lee Hysan Foundation, Chow Tai Fook Charity Foundation and Sports for Hope Foundation will promote a three-year holistic sports development scheme for 14 participating secondary schools, benefitting over 8,000 students who will be coached by 26 veteran athletes. The Federation is extremely proud of the successful roll out of the Scheme.

After the relocation of the Hong Kong Centre for Olympic Studies from the Hong Kong Baptist University to Olympic House on 10 November 2015, we are excited to announce the Official Opening of the Hong Kong Centre for Olympic Studies on 22 March 2016. A collection of publications on promoting Olympism was made available for the athletes and public.

Lastly, my heartfelt appreciation goes to everyone for their great commitment and selfless devotion towards the work of the Federation and the sports community, in particular our Vice-President Mr. Victor C. F. HUI who announced his retirement from the post in early 2016. I also like to express my special thanks to HKSAR Government, in particular, Home Affairs Bureau and the Leisure and Cultural Services Department for supporting the Federation.
