As a homegrown Hong Kong table tennis athlete, I have progressed through the junior and elite sports development pathways. I am grateful for the support that has enabled me to represent Hong Kong, China on the international stage.

Throughout my career, I have had the privilege of competing at the Olympic Games and major international championships. Winning a bronze medal in the Women’s Team event at the Tokyo 2020 Olympic Games, finishing fourth in Mixed Doubles at the Paris 2024 Olympic Games, and earning medals at the World Championships, Asian Championships, and Asian Games have been important milestones in my sporting journey.

These experiences have taught me that elite sport is not only about results, but also about resilience, teamwork, integrity, and responsibility. If elected, I hope to use my experience to represent athletes sincerely, support meaningful communication, and contribute to the continued development of sport in Hong Kong.

Community Service and Athlete Representation

As an athlete, I understand the dedication, pressure, and sacrifices required to compete at the highest level. I also recognize the importance of ensuring that athletes’ voices are heard in decisions that affect their training, competition, welfare, and long-term development.

I hope to serve as a bridge between athletes and sports organizations by listening actively, communicating responsibly, and helping to create a more supportive environment for athletes at different stages of their careers. I am particularly committed to encouraging younger athletes to pursue excellence with confidence, discipline, and respect for Olympic values.

Having progressed from a junior player to an Olympian, I hope my experience can help younger athletes navigate challenges with resilience and belief, while also strengthening the connection between athletes and administrators.
